

Hello,

Thank you for your interest in Pacific Rim Interiors!

We are a full-service cabinet shop that can make your dream a reality! Whether it be a kitchen, bathroom, office, mudroom, laundry... well you get the idea. We can get you from design stage to installation in expert fashion. Please see a brief explanation of our process beginning with our Complimentary, No-Obligation Consultation & Design Service.

The Design Process

Step 1: We can begin by working from construction drawings or arrange for an in-home consultation to collect applicable measurements and hear about your wish list.

Step 2: From there we will provide a working drawing to confirm the design meets the final goal.

Step 3: If needed, we will tweak the drawing once with small revisions to get closer to your vision.

Step 4: At this stage we will provide you with a complete no-charge, no-obligation quote that will include: *3D renderings, price of cabinetry, price of installation, handles/knobs pricing, estimated pricing on countertop plus pricing on any extras/options you request.* This should provide you with an accurate cabinetry budget for your project.

Step 5: After the above steps, if you wish to continue with us, we ask for a non-refundable \$1500.00 deposit. This Design Deposit goes towards the purchase price of your order. From here, we can either move onto the finer details of finalizing your order OR continue with the design stage... it's up to you.

Step 6: Once you are 100% satisfied with the design and wish to place your order we require:

- 50% deposit (less \$1500.00 design deposit) to place order
- 40% due once we receive and inspect the order
- 10% due once install is completed, and you're satisfied.

It's as simple as that – let's get started!
